Case Study

MARGRET STANHOPE BUILDING AT BURTON HOSPITAL

Our painters had an exciting project in which they painted the Margret Stanhope Building at Burton Hospital.

This wing of the hospital is especially designed for the dementia patients of the hospital.

This was an interesting project as doors and rooms were painted in specific bright colours to allow those in the home to not get confused by when trying to find there way around.

Bathroom doors were painted in a contrasting colour to the main bedroom door, green rooms and contrasting corridors also help with the dementia patients.

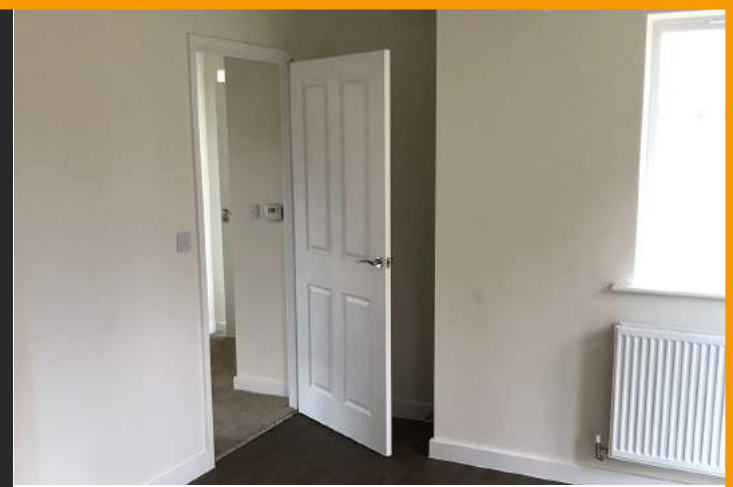

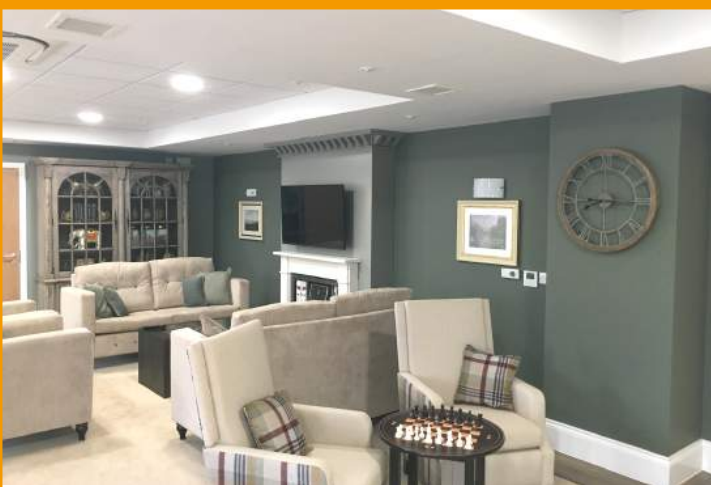

Case Study

SHIREBROOK NEW BUILDS

As an ongoing project, we have painted a range of new builds in Shirebrook.

As well as this, we also wallpapered and painted the showhomes.

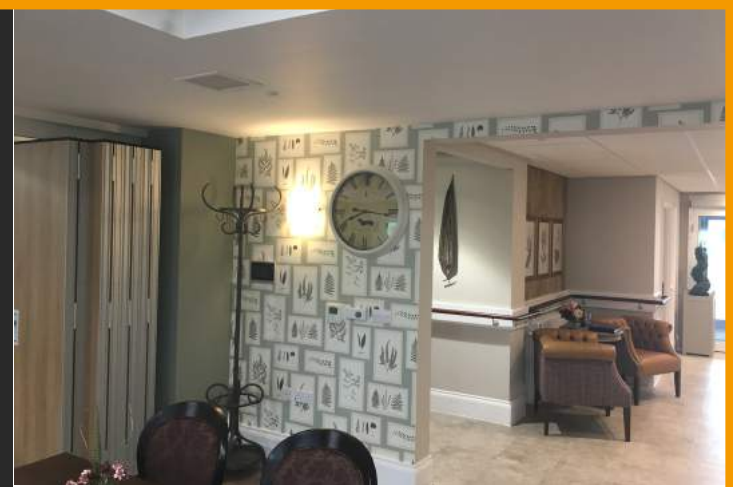

Case Study

HELMSLEY

Our painters have undertaken painting and wallpapering in a care facility in Helmsley. This included the communal areas as well as the apartments and houses on the estate.

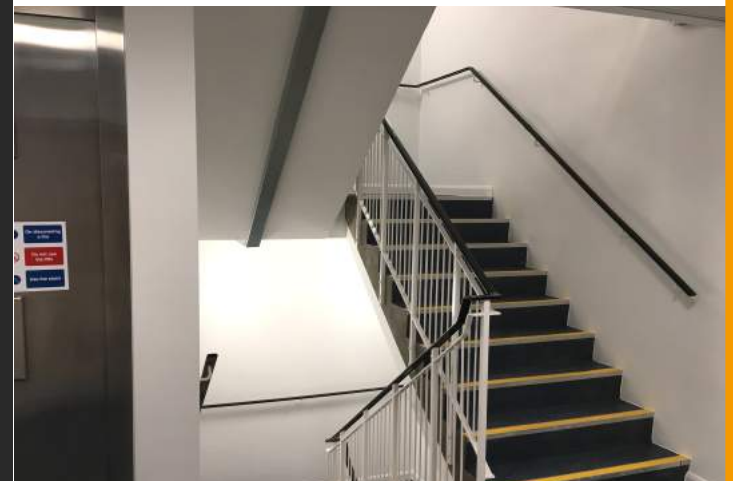

Case Study

KEEPMOAT WATH OFFICE

With working so closely with Keepmoat, we painted their offices to create a crisp and professional look in the offices and also brought in a splash of colour throughout, to create a working environment fit for all people.

Case Study

STUDENT ACCOMMODATION

Our painters take on student accommodation in Sheffield, each year, as part of work with Engie.

With this, we prepare the flats for the new and returning students to the University of Sheffield.
